1. DATE - TIME GROUP Summer 1964 2130	2. LOCATION Chatham, New Jersey
3. SOURCE Civilian	10. CONCLUSION INSUFFICIENT DATA FOR EVALUATION Apparently the lady sees things others do not see, since a few seconds is adequate time for her to point the final of the three objects out to her friends. Case too old to investigate and quality of data too poor to offer any valid suggestions as to the cause of the sightings.
4. NUMBER OF OBJECTS Three	11. BRIEF SUMMARY AND ANALYSIS Observation at about 2130 on a summer night in 1964 reported to the Air Force in a letter in 1965. Witness was looking WEST talking to others looking EAST. Looked up and saw an object that appeared to move silently Westward. Looked like a blue light but was not glowing and had no tail. Speed was too fast for an a/c and too slow for meteor. Disappeared before anyone could turn around and see it. About one minute later a light that looked like the funnel of a tornado appeared in the Southern sky. This light lasted a few seconds. Nothing happened after that.

Dear Miss [redacted]

This is in reply to your letter concerning aerial observations which you have made.

If you had reported your observations to the Air Force at the time of the sighting, an investigation would have been made. At this late date, it is not feasible to attempt an investigation towards a solution of your observations.

I am enclosing the current report on Project Blue Book, the Air Force project on this subject. I hope this information will be of interest to you.

Sincerely,

JOHN P. SPANGLIN

Reference the attached letter from [REDACTED] requesting information on unidentified flying objects. Her observation in the summer of 1964 is too old to investigate. It is suggested that a letter of appreciation for her report together with a Fact Sheet be sent to her.

YOU - THE NUCLEUS OF SECURITY!

July 8, 1965

To Whom It May Concern:

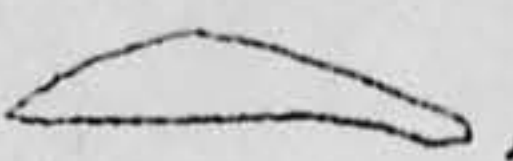

My Name is [REDACTED]. I'm
15 years old and live at:

I am now staying at:

Sunnyvale, California

Last summer, 1964, I saw an
odd sight in the sky. It wasn't
until I read the book, "Flying
Saucers and the U. S. Air Force,"
By Lt. Col. Lawrence J. Tacker
U.S.A.F., that I decided that I
should write to you. I'm sorry
that I didn't ~~may~~ write immediately.

It was about 9:30 at night.
Three friends and I were outside
talking. I was facing West they
were facing East. I was talking
and just happened to look up when

out of nowhere in the Northern
sky an object this shape, ,
appeared and silently moved
Westward. It was like a blue
light, but not glowing and it
had no tail. It moved too fast
for a plane, but too slow for
a meteorite. Before anyone
could turn around it disappeared
behind some trees. Not more
than a minute had gone by
when a flash of light
appeared in the Western
sky. A minute later toward
the Southern sky I saw
a light that looked like
this:  It disappeared in
seconds. Nothing happened after
that.

I would have written you
that night, but my friends said
that you would think I was
playing a joke. Now I know
that I was wrong and that

you need every bit of
information.

Thankyou for reading my
letter.

Sincerely yours,

~~Chatham New Jersey~~
OR

~~Sunnyvale California~~
